Access Panels

- The Access Panels are located on the backside of the machine.
- There is one panel for the main body that allows access to the main board as well as to other components.
- The second panel is located behind the backglass to allow for servicing.
- Both are lockable with an identical tubular/radial key.

TABLES

22 FarSight games running natively (not streaming)

Zaccaria games running natively (not streaming). Will arrive later in 2021.

TABLES

Navigating

Select "Tables" at the top

Navigate to the table you want via D-Pad, press "Start" button to select a game.
History/description of the table.

Button mapping.

QR code to Table-specific Leaderboard website.

Instructions for posting High Score.

TABLES

In-Game Menu

- The in-table settings options are accessed by pressing the "Menu/AtGames" button once the table has loaded.
- The following settings are available:
  - Call Attendant – Used when the ball is "stuck" in-game and requires a reset.

  - Quit Play – Quits playing the current table but does not exit you out of the table.

  - Saved Scores – Allows for saving scores

  - Quit Game – Completely exits you out of the table back into the Legends ecosystem.

  - Button Mapping – Allows user to change the button properties for that specific table.

  - Settings – Takes user into the In-Game Settings menu (See next slide)
TABLES

In-Game Settings

The in-table settings options are similar to all Legends products. The major difference is the inclusion of accelerometer settings. The following settings are available in-table:

- High Scores
- Leaderboards
- Table Goals
- Table Guide
- Table History
- Table Flyer
- Settings
  - Volume
  - Flippers
  - Display/Backglass
  - Accelerometer
  - Reset
- Credits

ARCADENET ™

AtGames

Cloud Pinball 9 streaming games at launch (mixture of VPX and Future Pinball) with additional tables added soon.

**ASTROBLAST** **ASTROHITS** **BIG SPENDER** **COOL POSITION** **DARK QUEST** **FLAME REAPER 2010** **FROGSTER** **JUNGLE BOY**

**LUNCH TAKEOUT** **MULTIPEDE** **POWERPUCK** **REEL IT IN** **ROBOTS INVASION** **TEMPEXX** **TUTENKHAM**

ARCADENET ™

Navigating

Select "ArcadeNet®" at the top

First press the "Menu/AtGames" button to bring up the side menu. Scroll down to "Cloud Pinball" and press the "Select" button. Finally, navigate to the table you want via D-pad, press "Start" button to select a game.

At launch, Cloud Pinball tables will not make use of the backlgass. Use of backlgass and full table display will occur in later firmware updates.

BYOG ™

Steam Pinball Arcade tables will be supported through PC connection & BYOG Cloud Server. However, full backglass intergration will not be supported at launch. When supported, backglass utilization will only work if the game or app supports cabinet mode.

Select "BYOG" at the top

BELIEVE IT OR NOT

**FRANKENSTEIN**

GHOSTBUSTERS

PHANTOM OF OPERA

STAR TREK

SUPER JACKPOT

The standard settings you have come to know and love in the Legends Ecosystem will be present in the Legends Pinball.
- Under "Pinball Settings", the player can set universal settings that will affect ALL tables.

- The "HDMI Setting" tile allows the player to select which display they wish to utilize when switching between HDMI inputs.

APPENDIX: PACKAGING / UNBOXING

Ships in two boxes: Main body ~42.25 kg/93 lbs, backlgass 6.6 kg/14.5 lbs.

APPENDIX: PACKAGING / UNBOXING WARNING!!!

- Please note that when assembling the machine that the top rear of the playfield has an opening for connecting the backglass.
- Because of the weight of the cabinet body, carrying the cabinet body by grabbing onto this opening can cause serious damage to both the body and electronics inside.
- Please exercise extra caution when moving the cabinet body and backglass so that you have an ideal and safe out-of-the-box experience.

APPENDIX: EASY ASSEMBLY

AtGames

Extremely Easy to Assemble!

All major pieces are already preassembled! Only requires legs and backglass to be installed.

Total assembly time should be approximately 15-30 minutes.

Finally, take the backglass out of the box and connect it to the main body via the 2 cables and screws provided.

WARNING: Failure to connect cable correctly could result in damage. Ensure ends are plugged together with arrow facing arrow

The Legends Pinball comes in two boxes. The first houses the main body and legs, the second houses the backglass. Start with the main body and assemble the legs.

Note: Due to the weight of the primary box, it is recommended that you have another person help install the legs.

THANK YOU!
