Important Update Information

- This update applies to purchased Gottlieb single tables and multi-table packs on Legends Pinball 4K™, purchased Gottlieb single tables on Legends Pinball HDP™, and Gottlieb tables available through PinballNet™ on both devices.
- ArcadeNet® Gottlieb tables are excluded; separate updates will follow.
- Support for additional Legends devices is in development, with updates planned soon.

Update Table Packs

1. Connect your Legends Pinball 4K™ or HDP™ machine to the internet.
2. Sign in with your Legends ID.
3. Locate the Gottlieb pack or table using either update path:
   - **AppStoreX™:** Open AppStoreX™ directly and find the pack or table.
   - **Legends Access App:** Open Legends Access App → AppStoreX™ → Downloads.
3. Select the download/update icon on the pack or table tile and follow the prompts.
4. Keep the machine powered on and online until the update is complete.

Update PinballNet™ Tables

1. Connect your Legends Pinball 4K™ or HDP™ machine to the internet.
2. Sign in with your Legends ID and ensure your PinballNet™ subscription is active.
3. Open the PinballNet™ menu.
4. Find and select the Gottlieb table you want to update.
5. Select Update, if available, and follow the on-screen instructions.
6. Keep the machine powered on and connected to the internet until the update is complete.
7. Repeat for any other Gottlieb tables with available updates.

Visual Enhancements

- Updated ball visuals using a physically based rendering (PBR) pipeline with image-based lighting for a more realistic look.
- Enhanced table lighting for stronger contrast and improved visibility.
- Improved visual depth reconstruction for a more dimensional table presentation.
- Deeper, more natural shadows throughout the table environment.

Performance Improvements

- Added asynchronous loading to help reduce table load times.

Gameplay and Online Updates

- Fixed accelerometer nudge issues.
- Scores can now post to the leaderboard without requiring players to exceed a local high score first.

Audio and SSF Fixes

- Fixed stereo sound issues.
- Fixed Surround Sound Feedback™ (SSF) issues.
