A: Yes, players will have the ability to purchase AtGames tables ported to and published in Legends 4K™ Format from on-device purchase and the AtGames E-Store.

1.3. Is in-game purchasing supported on the Legends 4K™ Platform?

A: Yes, the Legends CE-4K platform supports in-game purchases. It features a payment gateway and API that allow for seamless on-device buying from the AtGames E-Store. Purchases can be redeemed and installed with just one click on Legends 4K™ devices.

1.4. Will other pinball tables be available in Legends 4K™ Format?

A: Yes, over 140 AtGames original tables are available in Legends 4K™ Format and sold separately. These tables are exclusively compatible with Legends 4K™ Platform devices. Additionally, Legends 4K™ tables can be shared among Legends 4K™ devices.

1.5. Will all current Legends HD tables be ported to Legends 4K™ Platform devices and play at the spec of 4K playfield at 60fps, HD backglass, and HD DMD?

A: Yes, the Legends 4K™ Format version pinball packs for Taito, Natural History, Dr. Seuss, Gottlieb and Zaccaria will be available for purchase on the Legends 4K™ machine as well as on the AtGames E-Store. All Legends 4K™ Format pinball packs will play at the spec of 4K playfield at 60fps, HD backglass, and HD DMD.

1.6. I already have an AtGames Legends HD device, can I play new Legends 4K™ released Pinball Packs that I purchased from the AtGames E-Store?

A: New Legends 4K™ titles are only available for the Legends 4K™ devices and will not work on the Legends HD devices.

1.7. What are the dimensions and weight of the Legends Pinball 4KP Jurassic Park [SE] Premium Starter?

A: Product size (approximate): 66 (H) x 43 (L) x 23 (W) inches; the height of the playfield from ground: 35". Weight: 120.32lbs.

A: Three displays on Legends Pinball 4KP Jurassic Park [SE] Premium Starter: 4K playfield at 60fps, HD backglass, and HD DMD. New Legends 4K™ Pinball Packs available for purchase from the on-device AppStoreX™ or from the AtGames E-Store will be all in Legends 4K™ Format.

1.10. Will OTG* from PC still work? Will the 4K playfield support OTG at 4K? Will it support OTG of HD-only from a PC?

A: Yes, to all of the above. And the SSF Kit will support OTG too.

*OTG Feature available for purchase as additional Add On.

1.11. Will there be dedicated Legends 4K™ leaderboards?

A: Yes.

1.12. Will the Legends 4K™ Platform use the new Legends CE-4K User Interface (UI)? Will there be an option to get the Legends HD UI on the Legends 4K™ devices?

A: The Legends 4K™ devices will only have Legends CE-4K UI.

1.13. How will I launch the pinball in Jurassic Park if it doesn't have a Tazer Stun Gun?

A: The "Start" button on all Legends 4K™ devices will launch the pinball in Jurassic Park, as well as any other pinball table we release that uses a launch button on the original machine.

1.14. Why do you have a plunger instead of the Tazer Stun Gun like the original Jurassic Park pinball machine?

A: We want the user experience to be versatile and to be able to accommodate most of the pinball games that use a traditional plunger, including the games that come built-in to the machine. The plunger also supports our Open and Connected Platform (OCP) more efficiently as most pinball tables use a plunger.

2. EMBEDDING AND SOFTWARE

2.1. For pre-installed tables that come with the Legends Pinball 4KP Jurassic Park [SE] Premium Starter, will they receive updates?

A: Yes, if updates are developed in the future, they will be available to be downloaded and installed onto your Legends 4KP machine.

2.2. Will a built-in pinball game update require a firmware update?

A: Normally, a component update is sufficient and a firmware update isn't required. However, in some cases, a firmware update may be necessary to ensure you have the best pinball experience.

2.3. How will updates and bug fixes for the digital pinball games be delivered to the Legends Pinball 4KP Jurassic Park [SE] Premium Starter?

A: Users will be able to receive updates via internet.

2.4. I don't like to update firmware; will I have to update the firmware to enjoy new titles as they are released?

A: Yes, you will need to update firmware. It is not a recommendation, but a requirement to update to the latest firmware to ensure the user experience is optimal for gameplay as well as to make use of any new features that may be developed.
