

Legends Pinball 4K™ Single-Table Packs FAQ (October 17, 2025)

1. What's new starting October 17, 2025?

A: Starting October 17, all Legends Pinball 4K™ owners - including international players - now can purchase single-table packs directly from their device! This includes individual AtGames-published pinball tables such as AtGames Originals (Dr. Seuss, Natural History, Rare, TAITO), Gottlieb, Magic Pixel, and Zaccaria.

2. Why is this change happening?

A: Not everyone wants to buy full multi-table packs. This update gives all players - domestic and international alike - more flexibility to pick and choose their favorite tables, at lower price points and with a smoother On-Device-Purchase experience.

3. How do I purchase single tables?

A: Browse, purchase, and play directly from your Legends 4K™ device via AppStoreX™ (ASX). All purchases are automatically stored in your MDL (My Digital Locker) - no codes or extra steps needed!

4. What happens to the existing packs on the AtGames eStore?

A: Starting November 1, AtGames Legends Pinball Packs for Legends 4K™ will no longer be available for purchase through the AtGames eStore (www.atgames.us).

A transition period will take place from October 17–31, during which the AtGames eStore will continue to sell existing AtGames Legends Packs.

After October 31, all existing and new AtGames Pinball Packs (excluding Zen Studios Legends Pinball Packs) will be available exclusively on ASX through On-Device-Purchases (ODP).

5. Will my existing purchases be affected?

A: No. All previously purchased AtGames multi-table or single-table packs remain fully accessible and unaffected by this change. Please note: when browsing AppStoreX™ to purchase single-table packs, double-check that you don't already own the table as part of a previously purchased multi-pack.

6. What about Zen Studios Legends Pinball Packs?

A: Zen Studios Legends Pinball Packs will continue to be available through current purchase methods. Starting November, all new Zen purchases will transition to On-Device-Purchases only. Additional updates about Zen content will be announced separately.

7. Can I still view previously released pack information on the AtGames eStore?

A: Yes. You can visit the AtGames eStore (www.atgames.us) to view information about previously released pinball packs and tables. You can also explore pack information right from your Legends 4K™ device.

8. I'm an international customer. Can I use On-Device-Purchases (ODP)?

A: Yes! With firmware v6.1.24 or later, international players can now make On-Device-Purchases directly from their Legends 4K™ device - including single-table packs, Zen Studios Legends Pinball Packs, Advanced Features, and PinballNet™.

9. What about Legends Pinball HD and Legends Pinball Micro HD owners?

A: No changes yet. Continue shopping through the AtGames eStore as usual. Updates - including single packs and new features - will be announced soon.

10. Is there a promotion for this new update?

A: Yes! To celebrate this launch and welcome international players, a special ODP Celebration Sale will run from October 22–29:

- 50% OFF all available packs and services
- Available exclusively via AppStoreX™ on your Legends 4K™ device
(Zen pinball packs excluded)

11. Where can I find more information?

A: You can always check:

- Your Legends 4K™ device for AppStoreX™ updates
- For the latest information on future releases, please follow AtGames on Facebook (@AtGamesGaming), Twitter/X (@AtGamesGaming), or Instagram (@atgamesgaming).
