AtGames LEGENDS ULTIMATE 2 FAQ

November 13, 2026

1. PRODUCT OVERVIEW

1.1. What is Legends Ultimate 2?

A: Legends Ultimate 2 is AtGames' next-generation, premium full-size home arcade. It combines authentic two-player controls, enhanced Gen-2 performance, connected features, built-in arcade and pinball controls, and a modular architecture designed to support continued innovation.

1.2. Is Legends Ultimate 2 a complete arcade out of the box?

A: Yes. Legends Ultimate 2 delivers a complete two-player arcade experience right out of the box, including a 24-inch HD display, dual joysticks, eight-button Pro control layouts, side pinball buttons, and an extensive built-in game library.
Optional accessories and services provide additional ways to expand, but they are not required to enjoy the machine.

1.3. What does "The Legend Continues" mean?

A: Legends Ultimate 2 builds on the proven open and connected Legends platform introduced in 2019. It carries forward the full-size arcade experience players know while adding enhanced performance, connected play, modular expansion, and more freedom in how and where they play.

1.4. What does Open & Connected™ mean?

A: Open & Connected™ describes the freedom to enjoy built-in games, expand through supported purchases and subscriptions, participate in connected activities, use compatible Advanced Features, and connect a compatible PC.

1.5. Is this a full-size arcade cabinet?

A: Yes. Legends Ultimate 2 is a premium full-size standing arcade designed for authentic side-by-side two-player play.
The approximate assembled dimensions and weight are:

- Width: 28.35 inches
- Depth: 21.65 inches
- Height: 65.94 inches
- Weight: 79.64 pounds

2. DISPLAY, CONTROLS, AND PERFORMANCE

2.1. What size is the display?

A: Legends Ultimate 2 features a vibrant 24-inch HD display.

2.2. What controls are included?

A: The stock control deck includes dual joysticks and two eight-button Pro control layouts designed for authentic two-player arcade gaming.

2.3. Does it include pinball controls?
A: Yes. Side flipper buttons are included, allowing players to enjoy supported digital pinball tables directly on Legends Ultimate 2.

2.4. Does the stock control deck include a trackball?
A: No. A trackball is not included on the stock Legends Ultimate 2 control deck. The optional ACPX expansion deck will include an integrated arcade trackball and is planned to be offered separately when it becomes available.

2.5. What does Gen-2 performance provide?
A: The enhanced Gen-2 platform delivers upgraded processing, graphics, and responsiveness across supported arcade games, pinball tables, connected features, and compatible applications.
Performance may vary by game, application, configuration, and content.

2.6. What processor is included in the stock control deck?
A: The stock Legends Ultimate 2 control deck is powered by the Rockchip RK3399 Gen-2 platform.

2.7. Does Legends Ultimate 2 include Wi-Fi?
A: Yes. Wi-Fi supports software and content updates, Legends Access, purchases, subscriptions, leaderboards, events, and other connected features.
A compatible wired Ethernet connection may also be used where supported.

3. BUILT-IN GAMES AND CONTENT

3.1. How many games are built in?
A: Legends Ultimate 2 includes more than 200 built-in games spanning a wide variety of arcade experiences.
The game count is provided for reference only and is subject to change.

3.2. What types of games are included?
A: The built-in library includes action, fighting, platform, puzzle, sports, shooting, classic arcade, and supported digital pinball experiences.

3.3. Are the built-in games ready to play without additional purchases?
A: Yes. The included game library is ready to play after completing setup and required updates. Additional purchases and subscriptions are optional.

3.4. Can I add more games?
A: Yes. Players can expand through AppStoreX™, supported subscription services, compatible Bring Your Own Games features, and other supported content options.

3.5. What is AppStoreX™?
A: AppStoreX™ is the destination for browsing compatible arcade games, pinball tables, and other supported content.
AppStoreX™ purchases are completed through Legends Access. Internet access, a Legends account, and separate purchases may be required.

3.6. Can I purchase games directly from the machine?
A: Yes. Use Legends Access on the device to browse AppStoreX™, purchase supported content, and manage compatible downloads.

3.7. Are subscriptions required?
A: No. A subscription is not required to play the built-in game library. Optional Legends subscription services provide access to additional supported content and features.

3.8. Is a subscription trial included?
A: Eligible customers may receive a credit-card-based free trial for a supported subscription service through Legends Access. The applicable service, trial length, eligibility requirements, and billing terms will be provided with the offer.

4. LEGENDS ACCESS AND CONNECTED FEATURES

4.1. What is Legends Access?
A: Legends Access is the central hub for supported Legends experiences. It allows players to browse AppStoreX™, access content and services, discover offers, receive messages and updates, view leaderboards, and participate in private tournaments and other connected activities directly on the machine.

4.2. Do I need a Legends account?
A: A Legends account is required for purchases, subscriptions, firmware and content updates, leaderboards, events, private tournaments, Advanced Features, and other connected services.

4.3. Is Legends Access available on the machine?
A: Yes. Legends Access is available on the machine for AppStoreX™ purchases, connected features, and tournaments. Legends Access Mobile provides additional resources and supported features on the go.

4.4. Will Legends Access offer special deals?
A: Yes. Legends Access provides access to supported offers, Week One Deals™, and other limited-time AppStoreX™ promotions. Availability and terms may vary.

4.5. What types of updates are delivered through the connected experience?
A: Connected updates may include system firmware, game and table updates, feature improvements, service updates, notifications, and other supported content.

5. LEADERBOARDS, EVENTS, AND COMPETITION

5.1. Does Legends Ultimate 2 support connected leaderboards?
A: Yes. Players can post scores and climb connected leaderboards on supported games and tables.

5.2. Can I participate in online events?
A: Yes. Legends Ultimate 2 supports eligible community events, challenges, tournaments, and other connected activities.

5.3. Can I create private tournaments?
A: Yes. Private tournaments are available through Legends Access, allowing families, friends, and communities to create supported competitions.

5.4. Do all games support leaderboards and tournaments?
A: No. Leaderboards, events, and tournament functionality vary by game and table.

5.5. Will IFPA or Digital Pinball World Rankings competitions be supported?
A: Additional competitive pinball initiatives may be introduced in the future. Eligible events, formats, rankings, and availability will be announced separately when confirmed.

6. MORE WAYS TO PLAY

6.1. Can I bring my own compatible games?
A: Yes. Supported Advanced Features allow players to add compatible games and expand the ways they play.
Compatibility, setup requirements, storage, activation, and supported formats may vary.

6.2. Can I connect a PC?
A: Yes. Optional OTG functionality allows a compatible PC to use the cabinet's display and controls.
A compatible computer, cables, software, Advanced Features activation, and additional setup may be required.

6.3. Does Legends Ultimate 2 support General Loader 2.0?
A: Yes. General Loader 2.0 provides support for compatible external applications within the Gen-2 platform. ACPX also supports General Loader 2.0. Software, activation, storage, configuration, and compatibility requirements may apply.

6.4. Can I play on a television?
A: The stock Legends Ultimate 2 control deck does not support HDMI television play. Compatible television play will be available through the optional ACPX expansion deck, sold separately.

6.5. What is required for television play with ACPX?
A: ACPX, a compatible television, an HDMI cable, a power connection, supported content, and any other required accessories or setup may be needed. Final compatibility and setup instructions will be provided when ACPX becomes available.

7. ACPX AND MODULAR EXPANSION

7.1. What is ACPX?
A: ACPX, or Arcade Control Panel X, is an optional modular expansion deck for Legends Ultimate 2.
It adds:

- Rockchip RK3588 processing power
- Two-player eight-button controls
- An integrated arcade trackball
- General Loader 2.0 support
- HDMI connectivity for compatible television play
- Plug-and-play modular expansion
- Performance designed to support future community initiatives

7.2. Do I need ACPX to use Legends Ultimate 2?
A: No. Legends Ultimate 2 delivers a complete next-generation arcade experience with its stock control deck.
ACPX is an optional expansion for players who want additional processing power, an integrated trackball, and more ways to customize their setup.

7.3. How does the modular Gen-2 architecture work?
A: The Gen-2 processor is located inside the detachable control deck. This allows a compatible deck to be exchanged without replacing the entire cabinet.
The architecture is designed to support continued innovation through compatible control decks and other upgrades.

7.4. Is ACPX a replacement for the stock deck?
A: ACPX is an optional alternative control deck. Players can continue using the included stock deck or add ACPX based on their preferred games, controls, and setup.

7.5. How much will ACPX cost?
A: ACPX pricing and purchase details will be announced separately.

7.6. When will ACPX be available?
A: ACPX is targeted for availability in Q1 2027. Final timing will be announced separately.

7.7. Will other Gen-2 decks or upgrades be offered?
A: The modular architecture is designed to support future compatible control decks and other upgrades. Additional products and availability will be announced separately.

8. COMPATIBILITY

8.1. Is the Legends Ultimate 2 control deck compatible with the original Legends Ultimate?
A: No. Legends Ultimate 2 uses a new CPU-inside Gen-2 architecture and is not compatible with the original Legends Ultimate cabinet.

8.2. Are QuadPlay and Gamer Pro decks compatible with Legends Ultimate 2?
A: No. Existing QuadPlay and Gamer Pro decks do not use the new CPU-inside Gen-2 architecture and are not compatible with Legends Ultimate 2.

8.3. Is BitLCD compatible?
A: BitLCD is expected to be supported as an optional accessory. Final compatibility and setup information will be provided after testing is complete.

8.4. Will my existing purchased content work?
A: Compatibility depends on the title, license, platform, and supported product family. Final compatibility details will be provided through the product page, Legends Access, and applicable content listings.

9. SETUP AND SOFTWARE

9.1. Is assembly required?
A: Yes. Assembly instructions will be published before launch and will be available by scanning the QR code on the refrigerator magnet included in the packaging.

9.2. What is the recommended setup journey?
A: The simplified setup journey is:

- Scan the QR code on the included refrigerator magnet and access Legends Access.
- Follow the assembly and setup instructions.
- Connect Legends Ultimate 2 and begin playing.

The same resource will also provide access to warranty information, customer support, and available deals.

9.3. Is a Day-1 update required?
A: Yes. An internet connection and Day-1 update are required to install the latest system software, services, compatibility improvements, and available feature updates.

9.4. Can I play without a continuous internet connection?
A: Yes. Supported built-in games can be played offline after required setup and updates are completed.
An internet connection is strongly recommended and is required for updates, purchases, subscriptions, downloads, leaderboards, events, private tournaments, and other connected features.

9.5. Does Legends Ultimate 2 use a new interface?
A: Yes. Legends Ultimate 2 uses the new Consumer Edition Gen-2 interface, designed to provide access to games, services, settings, Legends Access, and connected features.

9.6. Does it support attract mode?
A: Legends Ultimate 2 is designed to support custom attract-mode videos created by players. Additional compatible attract-mode content may be added over time.

10. ADVANCED FEATURES

10.1. What are Advanced Features?
A: Advanced Features provide optional ways to expand Legends Ultimate 2, including supported Bring Your Own Games functionality, compatible external applications, and OTG connectivity.

10.2. How much do Advanced Features cost?
A: Current Advanced Features pricing is:

- External Applications: $0
- OTG functionality: $100

Additional requirements, compatible equipment, cables, software, storage, and setup may apply.

10.3. Where can I learn more about Advanced Features?
A: Visit the Advanced Features FAQ **HERE**.

11. PRICING, PREORDERS, AND AVAILABILITY

11.1. What is the MSRP of Legends Ultimate 2, and will special preorder promotions be available?
A: The regular MSRP is $799.99. Legends Ultimate 2 will be available for preorder for $699.99, a savings of $100, from November 16 through December 7, 2026 or while available preorder quantities last.

11.2. When will preorder units ship?
A: AtGames plans to begin shipping Legends Ultimate 2 preorder units by the end of December 2026.
If shipping does not begin by then, affected preorder customers may either cancel their preorder for a full refund or keep their preorder and receive a complimentary gift.

11.3. How long will delivery take?
A: Once an order ships, delivery generally takes approximately one to five business days, depending on the customer's location and carrier conditions.

11.4. Where can I order Legends Ultimate 2?
A: Legends Ultimate 2 will be available through the official AtGames eStore **HERE**.

11.5. Will Legends Ultimate 2 be available through retailers or outside the United States?
A: Additional countries, distribution partners, and retail availability will be announced separately. Follow AtGames on social media and subscribe to the AtGames newsletter for the latest information.

12. WARRANTY AND SUPPORT

12.1. What warranty is included?
A: Legends Ultimate 2 includes a one-year standard warranty. Coverage, exclusions, claim procedures, and regional terms are governed by the applicable AtGames warranty policy.

12.2. Where can I get setup or technical support?
A: Assembly guidance, setup resources, and warranty information are available through the Legends Access Mobile App. Scan the QR code on the included refrigerator magnet to get started.
For additional assistance, visit the AtGames **Customer Support Portal**.

IMPORTANT PRODUCT NOTICE
Built-in game count, included titles, features, services, subscriptions, compatibility, product specifications, pricing, availability, and shipping estimates are provided for reference only and are subject to change.

Certain features require an internet connection, Legends account, compatible equipment, cables, software, storage, subscriptions, separate purchases, or Advanced Features activation. Availability and functionality may vary by title, service, product configuration, and region.

Please always be IP responsible when using Legends hardware: only install and run software that you have explicit rights or licenses to use. Respecting software ownership protects creators, supports a fair digital ecosystem, and helps ensure you get the best possible experience from your Legends device.
Any software or content not provided by AtGames that you access or run is your sole responsibility. By continuing, you confirm that you have all required rights, licenses, and permissions, and that your use complies with applicable law and third-party rights.
