

Release Notes: Rare Pinball Pack Part 1 for Legends HD Pinball Machines (January 23, 2025)

Sea of Thieves® Pinball Table Version 1.1.19

Get ready for an unforgettable experience with the Rare Pinball Pack Part 1 for Legends HD. It features one of the most iconic Rare franchises, Sea of Thieves®, reimagined as a remarkable pinball table.

Note 1: The Killer Instinct™ and Battletoads™ tables will be added to this pack on February 20, 2025, at no additional charge.

Note 2: In order to see the backglass preview artwork for Sea of Thieves®, you will need to update your Backglass Display Pack in AppStoreX™.

Rare Pinball Pack Part 1 for Legends HD is available now on the AtGames E-Store.

Compatibility and Additional Notes:

- Rare Pinball Pack Part 1 for Legends HD is playable on all currently released Legends HD Pinball Machines (Legends Pinball HD and Legends Pinball Micro HD) and will be compatible with future Legends HD Pinball Machines.

Known Issue:

1. Players may not be able to proceed past Mode 7 - Fate of the Morningstar if all successful shots are not registered. This is being worked on for a future update.
2. When the 2nd ball for Cannonball Multiball is locked, the resulting announcement is cut off.
3. Mode 3 incorrectly shows a reward of 5 million points on the DMD portion of the backglass when the rules say it is 10 million.
4. Players may experience a minor reduction in frame rate during certain modes. This is being worked on for a future update.
5. Due to the complexity of the Sea of Thieves® table, users may notice slightly longer load times than previous HD tables. This is normal.
