Known Issues Being Worked On:

1. Switching the Flipper and Nudge buttons inside of the Pinball Settings does not function properly within Zen pinball tables.
2. When the Haptic Feedback is set to "Disable", Haptic Feedback and Solenoids will not be available in Williams™ Pinball: Attack from Mars™. Changing this setting to "Enable" will allow the use these features. This will be corrected in an upcoming release.
3. As stated in Known Issue #1 in the Firmware v6.0.28 Release Notes, found here, after playing a not-yet-updated Zen table, updated Zen tables will experience micro-stuttering. Restarting the machine will resolve this issue.
